

2026 Rangeland Grasshopper Hazard

Data Source: The data summarized in this map were furnished by the respective state, county, university, and/or federal agency using a variety of survey methods and analytical techniques. Due to funding considerations, states may not have continuous survey coverage. This map was prepared by USDA APHIS PPQ.

Preparation Notes: Adult and treatment survey densities of adult specimens were interpolated to a maximum buffer distance using an empirical Bayesian kriging model. Areas were then filtered by major water features to produce final acreage estimates. Acreages are approximated based on rounding to millions of acres.

Grasshoppers per square yard
Based on 2025 Adult Survey

■ 0 - <3	5.1 million acres	■ 15+	18.7 million acres
■ 3 - <8	32.3 million acres		State Boundary
■ 8 - <15	32.0 million acres		County Boundary
